

## **Go Explore – Study abroad in Göttingen**

### **Mandatory: Seminar 3 ECTS**

#### **“Ethnic and Cultural Diversity in Germany”**

In this seminar, participants will analyse and reflect on past, current and future demographic trends in Germany in the context of globalisation and migration. Participants will work on different representations of “German identity” and analyse its developing narrative in an ever-changing world. In groups they will question past and current trends concerning ethnic and cultural diversity and will reflect upon the opportunities and challenges the recent developments have had on German society.

The seminar will include a study trip to the Museum Perspectives of Migration in Friedland to explore different narratives and representations about Germany’s past and present.
