1. INTRODUCTION: THE ERASMUS+ PROGRAMME

The Erasmus+ International Credit Mobility (ICM) Programme with third countries supports the mobility of individuals enrolled or employed at a higher education institution (HEI), from a Programme Country to a partner university in a third country not associated to the Programme (https://ec.europa.eu/programmes/erasmus-plus/node/3_en) or vice versa, namely:

- **Student mobility for studies**, open to short cycle, first cycle (Bachelor or equivalent) or second cycle (Master or equivalent) students, as well as third cycle doctoral candidates. The mobility period can last from 2 months (or one academic term) to 12 months.

In addition, any student may participate in blended intensive programmes. In these cases, physical mobility must last between 5 days and 30 days (excluding travel time) and be combined with a compulsory virtual component facilitating collaborative online learning exchange and teamwork. A blended mobility for studies must award a minimum of 3 ECTS credits.

- **Student mobility for traineeships**, open to short cycle, first cycle (Bachelor or equivalent) or second cycle (Master or equivalent) students, as well as third cycle doctoral candidates. The mobility period can last from 2 to 12 months.

- **Staff mobility for teaching for academic staff to teach** at a partner higher education institution (HEI) abroad. The mobility period can last from 5 days to 2 months.

- **Staff mobility for training for teaching and non-teaching staff** in the form of training events abroad (excluding conferences), job shadowing, observation periods and/or training at a partner HEI. The mobility period can last from 5 days to 2 months.

The Erasmus+ International Credit Mobility Programme promotes full academic recognition of studies and supports cross-border cooperation between higher education institutions. It brings students the possibility to study abroad with credit recognition at the home university.
