(4) Applications that do not comply with the provisions of the respective call for applications, in particular those that are not complete, in due form or on time, are excluded from the further procedure. Submitted documents remain with the university and are destroyed one year after the end of the process.

## **§ 7 Procedure of the application and selection process**

(1) <sup>1</sup>A selection procedure takes place each winter semester. <sup>2</sup>An applicant may only apply within the framework of one degree programme or partial degree programme. <sup>3</sup>Application is only permitted within the framework of a degree programme or partial degree programme for which the applicant has applied in due form and time as a first-year student or for which he or she is enrolled. <sup>4</sup>Updating of the online application in accordance with section 2 and the documents submitted is possible until the end of the application period; only complete documents submitted by the deadline will be considered.

(2) <sup>1</sup>The application must be submitted via an online portal. <sup>2</sup>If the online application according to sentence 1 it is not possible due to a case of hardship, the application may be submitted in writing or by recording it at the faculty administration of the faculty that is responsible for the degree programme or partial degree programme within which the application is made (hereinafter: responsible faculty); the faculty administration must record the applicant's information in the online application system without delay.

(3) <sup>1</sup>The information in the online application must be supported by suitable documents, which are also generally to be uploaded to the university's server using the online portal in accordance with section 1 sentence 1, in particular evidence of:

- a) the university entrance qualification (e.g. grammar school leaving certificate), passed coursework or examinations as well as degrees;

(4) <sup>1</sup>The scholarship holders shall be selected in a main procedure and, if necessary, in a subsequent procedure. <sup>2</sup>If the number of applicants exceeds the number of scholarships to be awarded, a ranking list shall be drawn up for the selection. <sup>3</sup>The selection decision shall be made according to talent and performance in combination with criteria of the following groups:

- a) special activities (appendix 2),
- b) social engagement (appendix 3) and
- c) special circumstances (appendix 4).

(5) <sup>1</sup>For the preparation of the ranking list, a procedure grade is determined for each candidate.

<sup>2</sup>The procedure grade results from the initial grade (appendix 1), which is improved as follows.

<sup>3</sup>For each proven criterion listed in appendices 2-4, the initial mark is improved by the value listed in appendices 2-4, but in the case of proof of several criteria of the group

- a) "special activities" by a maximum of 0.2,
- b) "social engagement" by the value 0.4,
- c) "special circumstances" by the value 0.4;

criteria that have already been taken into account in determining the maximum funding period, the eligibility to apply or the eligibility for funding may also be taken into account. <sup>4</sup>If there is equality of rank after the ranking list has been drawn up, the ranking shall be determined by the result of the initial grade; thereafter, in the event of equality of rank, the decision shall be made by lot. <sup>5</sup>As a prerequisite for eligibility for funding, it may also be stipulated in appendix 1 that proof be provided of the successful completion of a certain minimum amount of coursework and examinations; the information on the "subject semester" and "proof of special coursework and examinations" stipulated in appendix 1 shall refer to the winter semester for which the start of funding is applied for. <sup>6</sup>Appendices 1-6 may be amended by resolution of the member of the Presidential Board for Studies and Teaching, unless otherwise stipulated, and shall be published in the amended version in the Official Announcements I.

(6) <sup>1</sup>Scholarships shall be awarded separately by faculty and, if necessary, separately by degree programme, partial degree programme or subject area; scholarships may be awarded jointly for several degree programmes or partial degree programmes (cluster). <sup>2</sup>Scholarships may be awarded separately for each type of applicant as defined in appendix 1 or jointly for several types of applicants as defined in appendix 1. <sup>3</sup>The faculties shall draw up a ranking list in accordance with the above provisions and thereby make a preliminary selection; a selection committee shall be responsible, consisting of the Dean of Studies and one member each of the university teachers' group, the staff group, the MTV group and the students' group.

(7) <sup>1</sup>The scholarships to be awarded freely shall be distributed evenly among the faculties, taking into account the scholarships to be awarded for a specific purpose. <sup>2</sup>The share of each faculty shall be determined by the share of a faculty in the total number of study cases of the study programmes whose students are eligible for funding; in the case of study programmes which include independent partial degree programmes supported by different faculties (e.g. two-subject Bachelor's degree), the allocation of the study cases to the faculties shall be

carried out proportionally. <sup>3</sup>The maximum limit applicable to the university as a whole pursuant to § 11, section 4, sentence 1, StipG shall apply accordingly to the individual faculties.

## **§ 8 Approval**

(1) <sup>1</sup>The Presidential Board or the institution commissioned by it shall approve the scholarships on the basis of the preselection by the faculties for an approval period of one year; if a scholarship ends or is revoked before the end of the approval period, the scholarship may be transferred for the remainder of the approval period to the highest-ranking applicant who has not yet received a scholarship. <sup>2</sup>In the Göttingen Medical School, the decision shall be made by the Board of Directors. <sup>3</sup>If there is an important reason, in particular a violation of legal regulations, the pre-selection may be deviated from; the faculty administration of the relevant faculty shall be informed of this.

(2) In order to avoid inadmissible double funding, the University of Göttingen shall ensure by means of a query among the selected scholarship holders that they do not receive any other talent- and performance-related material funding pursuant to § 4 section 1 in conjunction with §1 section 3 StipG.

(3) <sup>1</sup>The granting of a scholarship includes the decision on the grant period, the amount of the scholarship and, if necessary, the duration of the funding. <sup>2</sup>The notice of approval specifies the exact date by which a scholarship holder must submit declarations or by which further documents must be received or submitted.

(4) <sup>1</sup>The payment of the scholarship requires that the scholarship holder is enrolled at the University of Göttingen. <sup>2</sup>If the scholarship holder transfers to another university during the award period, the scholarship will continue to be paid for one semester in accordance with the previous award, provided that the scholarship holder was enrolled at the University of Göttingen for the majority of the semester. <sup>3</sup>Application for another scholarship at the new university is possible.

(5) <sup>1</sup>The scholarship shall not be paid out until the notice of approval has become final. <sup>2</sup>The scholarships shall be granted retroactively to 1st October of each year, if necessary.

## **§ 9 Termination; Interruption**

<sup>1</sup>The scholarship ends, without the need for revocation, at the end of the month in which the scholarship holder

- a) has successfully completed the course of study (for the purposes of this provision, this is the case when this overall result of the intended degree has been communicated to the scholarship holder, at the latest, however, at the end of the second month after the month in which the last required examination performance was achieved),
- b) dropped out of university,

- c) has changed the degree programme or partial degree programme, or
- d) is exmatriculated.

<sup>2</sup>The scholarship shall also end when the maximum funding period is reached or eligibility for funding ceases. <sup>3</sup>If the scholarship holder changes institutions of higher education during the award period, the scholarship ends at the end of the semester for which the scholarship continues to be paid in accordance with § 8 section 4.

(2) <sup>1</sup>During a leave of absence (with the exception of a leave of absence for a study visit abroad) within the meaning of the ImmaO, the scholarship shall be interrupted. <sup>2</sup>With the continuation of studies following the leave of absence, the scholarship shall be continued for the remainder of the appropriately adjusted award period.

### **§ 10 Withdrawal**

- (1) <sup>1</sup>The award of the scholarship shall be revoked if the scholarship holder
- a) receives further funding in contravention of § 4 section 1 StipG, or
  - b) has obtained the grant by providing incorrect or incomplete information.

<sup>2</sup>In these cases, a retroactive revocation shall be pronounced.

- (2) The award of the scholarship shall be revoked with at least six weeks' notice to the end of a calendar month if the scholarship holder
